## SUBJECT INDEX

- Abscess, aortic root, 446–448  
 Acetaminophen, for chronic pain, after thoracic surgery, 898  
 N-Acetyl-beta-D-glucosaminidase, in kidney dysfunction assessment, 122–132  
 Activated coagulation time, in anticoagulation management, 47–52  
 Acute coronary syndrome  
   in aortic aneurysm repair, 864–867  
   aortic root syndrome presenting as, 446–448  
   respiratory failure in, 111–114  
 Acute normovolemic hemodilution, in cardiac surgery, in HIV infection, 474–481  
 Acute Physiology and Chronic Health Evaluation  
   database of, for performance evaluation, 347–353  
   in vascular surgery, 713–718  
 Acute respiratory distress syndrome, after cardiac surgery, prone positioning in, 414–417  
 Adhesion molecules, in cardiac surgery, 455–467  
 Aggregometry, in cardiac surgery, 40–46  
 Air embolism, in cavopulmonary connection, 576–580  
 Airway compression, by transesophageal echocardiography probe, in pediatric patients, 887–889  
 Albumin, for cardiac surgery, vs. hetastarch, 482–491  
 Aminocaproic acid, in cardiac surgery, survey on, 662–669  
 Anaphylactoid reactions, hetastarch-associated, 487  
 Anaphylaxis, drug-induced, 740–743  
 Anesthesia, general, angiotensin inhibitor therapy and, 180–186  
 Aneurysm  
   aortic, repair of  
     APACHE in, 713–718  
     atrial natriuretic peptide for, 204–209  
     coronary vasospasm in, 864–867  
     heparin-induced thrombocytopenia in, 732–734  
     myocardial performance index in, 706–712  
   atrial, 321–323, 636–638  
 Angiotensin receptor blockers, intraoperative hypotension due to, 180–186  
 Angiotensin-converting enzyme inhibitors  
   intraoperative hypotension due to, 180–186  
   postoperative, 187–191  
 Animal studies  
   anesthetic preconditioning, 217–224  
   carotid blood-flow velocity, 823–831  
   helium preconditioning, 554–559  
 Ankylosing spondylitis, endotracheal tube difficulty in, 273–276  
 Anticoagulants, for cardiac surgery. *See also* Heparin  
   in antiphospholipid syndrome, 735–739  
   management of, 47–52  
   survey on, 662–669  
 Anti-inflammatory agents, in cardiac surgery, 16–22  
 Antioxidants, in cardiac surgery, 455–467, 832–839  
 Antiphospholipid syndrome, in cardiac surgery, 735–739  
 Antiplatelet drugs, preoperative cessation of, with drug-eluting stents, 806–810  
 Aorta  
   aneurysm of, repair of  
     APACHE in, 713–718  
     atrial natriuretic peptide for, 204–209  
     coronary vasospasm in, 864–867  
     heparin-induced thrombocytopenia in, 732–734  
     myocardial performance index in, 706–712  
   atherosclerosis of, 766–773  
   congenital defects of, 98–101  
   dissection of  
     thrombosis in, 788–789  
     transesophageal echocardiography in, 766–773  
   surgery on  
     in kidney dysfunction, 522–529  
     kidney failure after, fenoldopam for, 23–26  
     undiagnosed carcinoid tumor in, 573–575  
 Aortic arch, interrupted, adult presentation of, 263–266  
 Aortic clamp, release of  
   pulmonary artery pressure management after, 204–209  
   seizures after, 119–121  
 Aortic insufficiency, adult presentation of, 157–159  
 Aortic root  
   abscess of, 446–448  
   dilation of, adult presentation of, 157–159  
   echocardiographic artifacts involving, 495–496  
   replacement of, polyethylene glycol sealant migration in, 160–161  
 Aortic valve  
   radiation damage of, 932–934  
   replacement of  
     pulmonary artery catheter obstruction in, 751–752  
     pulmonary embolism after, 255–258  
   stenosis of, cervical spine stenosis with, neurophysiologic monitoring in, 115–118  
   surgery on, levosimendan in, 693–698  
   three-dimensional echocardiography of, 911  
 Aortobifemoral bypass, undiagnosed carcinoid tumor in, 573–575  
 APACHE (Acute Physiology and Chronic Health Evaluation)  
   database of, for performance evaluation, 347–353  
   in vascular surgery, 713–718  
 Apoptosis, in cardiac surgery, aprotinin effects on, 16–22  
 Aprotinin, in cardiac surgery  
   anaphylactic reaction to, 740–743  
   in kidney dysfunction, 6–15  
   outcomes of, 16–22  
   pulmonary embolism and, 255–258
