SUBJECT INDEX

- Abscess, aortic valve, 561–563
 ABSORB trial, 5–6
 Acidosis, lactic, during cardiac surgery, 407–416, 711–719
 Activated protein C, for cardiac surgery, 858–859
 Air embolism, in cardiac surgery, three-dimensional echocardiographic assessment of, 705–707
- Airway
 injury of, persistent pneumothorax after, 369–372
 stenosis of, in cardiac surgery, 658–662
 Alveolar recruitment, in one-lung ventilation, 506–508
 Aminocaproic acid, clinical trials of, 2–3
 Anabolic steroids, cardiac abnormalities due to, 208–210
 Anesthesiology, intensive care training in, 110–114
 Aneurysm
 aortic
 after coarctation repair, 256–258
 partial left-heart bypass for, 893–900
 repair of, transesophageal echocardiography during, 71–74
 aortic root, surgery for, 571–572
 sinus of Valsalva, 421–423, 735–737
 ventricular, 118–120
 Angiography, for coronary artery graft patency verification, 232–233
 Angioplasty, carotid, vs. endarterectomy, 245–250
 Animal studies
 hemodilution agents, 339–347
 preconditioning, 4
 beta-adrenergic receptors and, 607–613
 helium for, opioid receptor effects on, 619–624
 timing of, 600–606
 xenon effects on, 614–618
 transcatheter valve replacement, 5
 Antegrade cerebral perfusion, in aortic arch surgery, 417–420
 Anticoagulant therapy, for ventricular assist devices, 743
 Antioxidants, as anti-inflammatory agent, for cardiopulmonary bypass, 386
- Aorta
 aneurysm of
 after coarctation repair, 256–258
- Aorta (*Continued*)
 partial left-heart bypass for, 893–900
 repair of, transesophageal echocardiography during, 71–74
 bypass in, 893–900
 coarctation of
 in moyamoya disease, 206–207
 repair of, aneurysm after, 256–258
 cross-clamping of
 pathogenic effects of, 229
 release of, 79–81
 dissection of, 427–428, 732–734
 embolism in, from atrial myxoma, 211–214
 transesophageal echocardiography of, 694–701
- Aortic arch
 repair of
 cerebral protection in, 417–420
 intensive care length of stay after, 789–794
 mechanical ventilation risk factors in, 495–500
 transesophageal echocardiography of, 697–699
- Aortic root
 aneurysm of, 571–572
 ulcer of, 564–565
- Aortic valve
 bicuspid, repair of, 570–571
 calcification of, in kidney failure, 253–255
 insufficiency of, in kidney failure, 253–255
 preservation of, 571–572
 prosthetic, endocarditis of, 561–563
 regurgitation of, 561–563, 732–734
 patient-prosthesis mismatch in, 572
 surgery for, 571–572
 valve replacement for, 855–857
 repair of
 classification of, 571
 intraoperative assessment of, 79–81
 respiratory function after, 795–801
