SUBJECT INDEX

- AbioMed AB5000, 660
 AbioMed Biventricular Support 5000, 659–660
 Abscess, aortic, in dental infections, 513–515
 Acdesine, for deep hypothermic circulatory arrest, 648
 Accessory leaflet, in mitral valve, 890–891
 N-Acetylcysteine
 for acute lung injury, 686
 for hemostasis, 13
 Acid-base management, in deep hypothermic circulatory arrest, 650–651
 Acute lung injury, after thoracic surgery, 681–690
 vs. acute respiratory distress syndrome, 681–682
 etiology of, 681–682
 incidence of, 681
 prognosis for, 686–687
 reduction of
 anesthesia for, 682–683
 blood transfusions for, 683
 fluid therapy for, 683
 intraoperative management for, 682–683
 strategies for, 685–686
 ventilation techniques for, 683–685
 risk factors for, 682
 treatment of, 686
 Acute respiratory distress syndrome, vs. acute lung injury, 681–682
 Air embolism
 in left ventricle, after aortic cannulation, 824–827
 after radiofrequency ablation for atrial fibrillation, 716–718
 Albumin, in priming solutions, clot formation and, 422–426
 Alcohol users, CABG surgery in, morbidity and mortality in, 580–585
 Allodynia, after thoracic surgery, analgesia techniques effects on, 608–616
- Alpha-state management, in deep hypothermic circulatory arrest, 651
 Ambler risk score, for preoperative risk assessment, 692
 AMEDEO information resource, 851–852
 American Society of Anesthesiologists, patient information site of, 851
 American Society of Thoracic Surgeons database, for blood product use, 814–816
 Aminocaproic acid, 875–882
 Amiodarone, for ventricular fibrillation prevention, in CABG surgery, 239–243
 Aneurysm, aortic
 ascending, 198–201, 776–779
 descending, 525–527
 repair of
 in coagulopathy, 828–830
 prediction of, 84–90
 transthoracic two-dimensional echocardiography for, 37–42
 wall motion in, 776–779
 Angiosarcoma, cardiac, coronary artery pseudoaneurysm in, 633–635
 Angiotensin-converting enzyme inhibitors, for CABG surgery, 10
 Animal studies
 alveolar damage in mechanical ventilation, for thoracic surgery, 617–623
 desflurane for preconditioning, 91–98
 isoflurane-enhanced St. Thomas solution, 99–103
 ketamine for neuroprotection, 132
 levosimendan pathologic effects, 624–628
 neurocognitive function after cardiopulmonary bypass, 293–299
 noble gases for cardioprotection, 143–163
 Antiapoptotic agents, for kidney failure, 997
 Anticoagulants
 monitoring of, in sternotomy, 469–470
 for noncardiac surgery, 674
