Erratum to the August 2014 issue of the Journal of Cardiothoracic and Vascular Anesthesia
J Cardiothorac Vasc Anesth 28(4), 2015

It was discovered that the original online version of the issue contained errors in pagination. The Publisher decided to ‘resupply’ (repost and replace) the XML and online PDF of the issue. The print version of the issue contained the correct folios at the time of printing.

A list of the correct page ranges for all printed articles in the August 2014 issue appears below.

The Publisher regrets and apologizes for any inconvenience caused by posting a new version of this issue online, but hopes that the reader will understand the reasons for doing so.

Acquisition of Competence in Lung Isolation: Simulate One, Do One, Teach … Repeat PRN———861-864
High-Fidelity Simulation of Lung Isolation With Double-Lumen Endotracheal Tubes and Bronchial Blockers in Anesthesiology Resident Training———865-869
A Retrospective Evaluation of the Use of Video-Capable Double-Lumen Endotracheal Tubes in Thoracic Surgery———870-872
Airway Ventilation Pressures During Bronchoscopy, Bronchial Blocker, and Double-Lumen Endotracheal Tube Use: An In Vitro Study———873-879
Right Ventricular Function During One-Lung Ventilation: Effects of Pressure-controlled and Volume-Controlled Ventilation———880-884
Drainage of Large Pleural Effusions Increases Left Ventricular Preload———885-889
Measurements of the Length and Diameter of Main Bronchi on Three-Dimensional Images in Asian Adult Patients in Comparison With the Height of Patients———890-895
A Comparison of the EZ-Blocker with a Cohen Flex-Tip Blocker for One-Lung Ventilation———896-899
A Clinical Evaluation of the ProSeal Laryngeal Mask Airway With a Coopdech Bronchial Blocker for One-Lung Ventilation in Adults———900-903
Disconnection Technique with a Bronchial Blocker for Improving Lung Defflation: A Comparison With a Double-Lumen Tube and Bronchial Blocker Without Disconnection———904-907
Comparison of Pulmonary Gas Exchange According to Intraoperative Ventilation Modes for Mitral Valve Repair Surgery via Thoracotomy with One-Lung Ventilation: A Randomized Controlled Trial———908-913
Superior Vena Cava Drainage During Thoracoscopic Cardiac Surgery: Bilateral Internal Jugular Vein Sheaths Versus One Percutaneous Superior Vena Cava Cannula———914-918
Almitrine Fails to Improve Oxygenation During One-Lung Ventilation With Sevoflurane Anesthesia———919-924
Anesthetic Implications for Patients With Swyer-James Syndrome———925-930
Acute Kidney Injury Within 72 Hours After Lung Transplantation: Incidence and Perioperative Risk Factors———931-935
Risk Factors of Postoperative Acute Kidney Injury in Patients Undergoing Esophageal Cancer Surgery———936-942
The Impact of Intraoperative Hypothermia on Early Postoperative Adverse Events After Radical Esophagectomy for Cancer: A Retrospective Cohort Study———943-947

Incidence of and Risk Factors for Cardiovascular Complications After Thoracic Surgery for Noncancerous Lesions—948-953
Mannitol and Renal Dysfunction after Endovascular Aortic Aneurysm Repair Procedures: A Randomized Trial——954-959
Acute Kidney Injury Assessed by Cystatin C After Transcatheter Aortic Valve Implantation and Late Renal Dysfunction——960-965
Single-Dose, Bilateral Paravertebral Block Plus Intravenous Sufentanil Analgesia in Patients With Esophageal Cancer Undergoing Combined Thoracoscopic – Laparoscopic Esophagectomy: A Safe and Effective Alternative——966-972
Prospective, Comparative Study of the On-Q® PainBuster® Postoperative Pain Relief System and Thoracic Epidural Analgesia After Thoracic Surgery——973-978
Incidence and Risk Factors Associated With Ipsilateral Shoulder Pain After Thoracic Surgery——979-982
Perioperative Management of Patients With DiGeorge Syndrome Undergoing Cardiac Surgery——983-989
Hemodynamic Recovery Following Postreperfusion Syndrome in Liver Transplantation——994-1002
Reappearance of Circulating Heparin in Whole Blood Heparin Concentration-Based Management Does Not Correlate With Postoperative Bleeding After Cardiac Surgery——1003-1007
Fondaparinux as a Safe Alternative for Managing Heparin-Induced Thrombocytopenia in Postoperative Cardiac Surgery Patients——1008-1012
Anticoagulation for Critically Ill Cardiac Surgery Patients: Is Primary Bivalirudin the Next Step?——1013-1017
Extracorporeal Membrane Oxygenation as a Bridge Therapy for Massive Pulmonary Embolism After Esophagectomy——1018-1020
Venoarterial Extracorporeal Membrane Oxygenation (VA ECMO) to Facilitate Combined Pneumonectomy and Tracheoesophageal Fistula Repair——1021-1023
Emergency Extracorporeal Life Support After Prolonged Out-of-Hospital Cardiac Arrest——1024-1026
Performance of an Apnea Test for Brain Death Determination in a Patient Receiving Venoarterial Extracorporeal Membrane Oxygenation——1027-1029
Dynamic Anterior Mediastinal Mass Physiology After Thoracotomy and Dissection for Left Upper Lobectomy——1030-1031
Thoracic Paravertebral Nerve Block as the Sole Anesthetic for an Open Biopsy of a Large Anterior Mediastinal Mass——1032-1039
One-lung Ventilation Via Tracheostomy and Left Endobronchial Microlaryngeal Tube——1040-1042
Methemoglobinemia: A Review and Recommendations for Management——1043-1047
Mitigating the Impact of Acute and Chronic Post-Thoracotomy Pain——1048-1056
Benefit to and Risks of Epidural Analgesia in Cardiac Surgery——1057-1063
Pulmonary Hypertension and Noncardiac Surgery: Implications for the Anesthesiologist——1064-1074
Anesthetic and Perioperative Considerations for Transapical Transcatheter Aortic Valve Replacement——1075-1087
A Modern Theory of Spinal Cord Ischemia/Injury in Thoracoabdominal Aortic Surgery and Its Implications for Prevention of Paralysis——1088-1099
Perioperative Transesophageal Echocardiographic Assessment of the Right Heart and Associated Structures: A Comprehensive Update and Technical Report——1100-1121
Novel Application of Rapid Prototyping for Simulation of Bronchoscopic Anatomy——1122-1125
CASE 7 — 2014: Rescue Therapy With Early Extracorporeal Membrane Oxygenation for Primary Graft Dysfunction After Bilateral Lung Transplantation——1126-1132
CASE 8—2014: Anesthetic Management of Bilateral Lung Transplantation From Donor Lungs Managed by the Organ Care System——1133-1136
CASE 9 – 2014: Supracarinal Tracheal Tear After Atraumatic Endotracheal Intubation: Anesthetic Considerations for Surgical Repair——1137-1145
CASE 10—2014 Eisenmenger Syndrome: Close the Hole——1146-1153
Pro: Cardiac Anesthesiologists Should Provide Critical Care Consultation in the Operating Room——1154-1155
Con: Cardiac Anesthesiologists Should Not Be the Intensivists of the Operating Room——1156-1158
New Frontiers in Aortic Therapy: Focus on Deep Hypothermic Circulatory Arrest——1159-1163
Acute Limb Ischemia and Transesophageal Echocardiography: Making a Case——1164-1165
When I Do a TEE, Am I Ready for What Comes Next?——1166
A Widened Mediastinum in an Asymptomatic Man With a Remote History of Repaired Type-A Aortic Dissection——1167-1170
Severe Transient Mitral and Tricuspid Regurgitation——1171-1173
An Unexpected Finding Complicating Pericardial Effusion and Tamponade——1174-1176
Addendum——1177
